### How to Read the Search Results

Each row represents one **class section of a course**.

- **Title:** Course name. Click to open full class details.
- **Subject + Course Number:** The official course identifier (i.e. ENGL 1A)
- **CRN (Course Registration Number):** Unique registration number for the class section
- **Units:** Number of credits earned
- **Instructor:** Faculty teaching the course
- **Class Type:** How the course is delivered (In Person, Hybrid, Online)
- **Meeting Times:** Days and times the class meets (if scheduled)
- **Campus:** Location of the class or "Online."

- **Status:** Shows seat availability: (Open, Full, Waitlist)

Students will study calculus concepts and techniques. Emphasis will be placed on the application of these concepts and techniques to business and management related problems. The applications of derivatives and integrals of functions including polynomials, rational, exponential, and logarithmic functions are studied.

**Section information text:**  
This section of Business Calculus is linked to a concurrent support course, Math 216, section #1097, T 1:30-2:30pm. You will be automatically enrolled in both sections. Note that if you drop one section, you will automatically be dropped from the other.

## Common Terms You'll See

**Schedule Type:** Lecture, lab, or another format

**Attributes:** How the course applies toward degrees or transfer (CSU, UC, GE areas)

**Part of Term:** Start and end dates within the semester (full-term vs short-term)

**Linked Sections:** Courses that must be taken together (ex: lecture + lab)

## Quick Tips

- The same course may appear multiple times with different instructors and/or times
- Each row = one class section of a course
- Always click the Title for the most complete and accurate class section information
